#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. HIRONO (for herself and Mr. SCHATZ):

S. 554. A bill to require the Secretary of Agriculture to conduct a study on the establishment of, and the potential land that could be included in, a unit of the National Forest System in the State of Hawaii, and for other purposes; to the Committee on Energy and Natural Resources.

Ms. HIRONO. Mr. President, I rise today to introduce a bill that requires the Secretary of Agriculture to conduct a study on the establishment of, and the potential land that could be included in, a unit of the National Forest System in the State of Hawaii.

The U.S. Forest Service currently oversees more than 150 National forests that receive Federal funding for water-

shed protection, wildlife conservation, enhancement of recreational access, wildfire prevention, among other things. Despite having unique forest ecosystems found nowhere else in the Nation, Hawaii is currently among the few States that do not have a National Forest. If warranted, a National Forest designation in Hawaii could provide additional Federal research and management resources.

This bill directs the U.S. Department of Agriculture Secretary, acting through the Chief of the U.S. Forest Service, to conduct a study in coordination with the Hawaii Department of Land and Natural Resources, and in consultation with the Hawaii Department of Agriculture as well as other State and local stakeholders, on the islands of Hawaii, Oahu, Kauai, Molokai, Lanai, and Maui.

This study would, among other things, assess unique vegetation types, opportunities to improve and protect forest resources, secure favorable water flows, and opportunities for visitor use.

The Secretary of Agriculture is given three years to conduct the study and report the results to Congress. Information from that report will then inform which lands in Hawaii, if any, would be suitable for inclusion in a National Forest. This bill is supported by the Hawaii Department of Land and Natural Resources.

By Ms. COLLINS (for herself and Ms. CANTWELL):

S. 557. A bill to establish a pilot program for native plant species, and for other purposes; to the Committee on Energy and Natural Resources.

Ms. COLLINS. Mr. President, I rise today to introduce the Native Plant Species Pilot Program Act. I am pleased to be partnering with Senator CANTWELL on this initiative. Our bipartisan bill would create a new pilot program at the National Park Service to support the use of native plants, and would direct the Park Service to review existing data and study the cost-effectiveness of using native plants.

Native plants are species found naturally in regions and can add beauty and value to our National Park System. Benefits range from using less water and pesticides, purifying the air, and recharging groundwater in wetlands. By using native species, the Park Service can also improve habitat for wildlife and restore important species of birds and butterflies to their natural environment.

In Acadia National Park, native plants are an important part of the ongoing conservation efforts undertaken by Superintendent Kevin Schneider and all those who work to encourage the use of native plants. Acadia National Park protects more than 900 plant species, including some that are globally, nationally, and locally rare.

Acadia is home to the vibrant rhodoras that flower along wetland edges in the spring and stunning wood lilies that bloom on the mountain tops
